*The name for this exhibition comes from the the everyday life and from the anonymity of ordinary people. Yet those anonymous men and women are the most fantastic in everyday life apart from the science fiction or pure fantasy art. Ismo Jokiahho is the artist, who have always a story behind his artworks even when he gives us the pleasure to experience the movements of the figures and shapes in urban landscapes or the city environments in our everyday life. The exhibition is full of purity, intensity, chaos, power, perfection, discipline and beauty – as a whole, life itself.*
